**IMPORTANT:** Whether submitting your referral online or via fax, the fastest way to ensure your patient can be seen is to provide us with strong supporting documentation. You can upload these documents directly through this form.

Supporting Documentation

Please upload applicable supporting documentation such as:

- Recent Labs
- Progress Notes
- Physical Prescription
- Demographics
- Insurance
- Other Useful Documentations

**Once submitted, your referral will be processed and our team will handle the rest.**

After sending your referral, a Thrivewell team member will contact your office to confirm it has been received. We will then work to obtain prior authorization, procure medications, and schedule the patient. This process generally takes between 7 to 14 days. We aim to get your patient from script to chair as quickly as possible.

**Did You Know?** After each infusion your patient's progress notes are sent directly to your office. Thrivewell ensures the best care for your patients with minimal effort from you. Refer your patients to Thrivewell Infusion today to ensure they get the care they deserve.

Thank you for choosing Thrivewell Infusion for your patient's infusion therapy needs.
